

The Trusted Brand In Pressure Treated Lumber

CULPEPER
WOOD PRESERVERS

ABOUT CULPEPER

SERVICE & PEOPLE

We are committed to employing, training, and maintaining a knowledgeable sales team and staff who understand the specific needs and challenges of lumber dealers. We genuinely care about you and your success, and will go the extra mile to meet your every need in an effective, friendly, and accommodating manner.

QUALITY PRODUCTS

We partner with the best producers of Southern Yellow Pine to supply all of our lumber dealers with products that are superior in quality and meet expectations relative to grade. By using our pressure treated lumber, you can be confident that you are using the highest quality product backed by one of the largest producers in the industry.

FACILITIES & CAPABILITIES

We will operate the most up-to-date plants and equipment to produce and ship your orders quickly and efficiently. We will also continue to offer our lumber dealers the most extensive array of products available anywhere to help you grow your business and gain a competitive edge.

SUPPLYING THE PROS

We remain steadfast in our commitment to supplying lumber dealers that serve the professional home builder and contractor. We understand your need for a wide variety of products and we have every product for every project. All of our energy and resources are employed to serve you, help grow your business, and make you successful.

THE CULPEPER PROMISE

The Culpeper Promise is about community. It is about valuing all of the participants in the supply chain equally and treating them with respect and dignity. We represent a single spoke in this communal wheel. Customers, suppliers, delivery drivers, employees and their families, trade associations, partners and friends make up the other spokes. Working together, and only together as a community, will we all thrive and prosper

CULPEPER 5/4 DECKING

CULPEPER 5/4 STANDARD

CULPEPER 5/4 GOLD

CULPEPER 5/4 PREMIUM

CULPEPER 5/4 SELECT

CULPEPER 5/4 CLEAR

Available In	5/4x6 (8' - 20')	5/4x6 (8' - 20')	5/4x6 (8' - 20') 5/4x4 (8' - 20')	5/4x6 (8' - 20')	5/4x6 (8' - 16')
Grade	Standard	Above Standard	Premium	Above Premium	Clear
Wane	Minimal	Minimal	Minimal	Minimal	None
Knots	Yes	Yes	Minimal	Minimal	None
Strength	Average	Average	Good	Great	Best
Appearance	Average	Good	Great	Great	Best
Notes	For the budget-minded consumer. Appearance is of moderate concern. Larger & more frequent knots. Virtually wane free.	Grade is between Standard and Premium Grades. Perfect for the quality conscious, budget sensitive project.	Contains far fewer and smaller knots than Standard Decking. Our most popular seller, with appearance being a top priority.	This decking grade is a step up from Premium. Denser and stronger for added stability and will have a seldom pin knot.	For the consumer that demands the very best in decking. Warm, rich wood grain. Denser and stronger for added stability. Knot-free. Wane free.

CULPEPER 2x6 DECKING

CULPEPER No. 1

CULPEPER PLATINUM

Grade	#1	DSS	#1 Prime	DSS #1 Prime	Clear
Wane	Minimal	Minimal	None	None	None
Knots	Minimal	Minimal	Minimal	Minimal	None
Strength	Good	Good	Great	Great	Great
Appearance	Good	Great	Great	Great	Best
Notes	When appearance becomes more of a factor. Smaller, fewer, sound, tight knots. Less wane than found in #2 Grade.	DSS grade lumber. Tighter growth rings. Smaller, fewer, sound, tight knots. Stronger & stiffer. Ideal for decks, gazebos & outdoor furniture.	Wane Free. Smaller, fewer, sound, tight knots. #1 grade knot structure. Four usable edges.	Presorted for optimal appearance. Fewer and smaller knots. Tighter growth rings. Denser and stronger for added stability.	Warm, rich, distinctive wood grain. Virtually knot-free. Wane-free.

CULPEPER PRODIGY

The Ultimate Deck Board

To make **CULPEPER PRODIGY** we start by using Culpeper Clear and add relief cuts that run the entire length of the underside of the board. This unique profile helps reduce cupping, warping and splitting making this Culpeper's Ultimate Deck Board. If you want real wood at a fraction of the cost of composite decking, choose Culpeper Prodigy - The Ultimate Deck Board.

Pressure-treated

Clear

1/4" Radius Edge

Relief Cuts to Reduce Cupping

AVAILABLE IN:
2×6 (12', 16', 20' only)

ACTUAL DIMENSIONS:
2×6 (1-3/8" x 5-3/8")

CULPEPER KDAT

Upgrade to **CULPEPER KDAT** and enjoy the timeless appeal of natural wood but with added benefits.

PROCESS:

After wood is pressure treated, the product is completely wet. It is then placed in a large oven (kiln) and the excess moisture is removed allowing the wood to return to its original moisture content level. This allows the wood to be stronger, stiffer and more dimensionally stable.

DRYING INCREASES THE WOOD'S STRENGTH AND MINIMIZES TENDENCY TO SHRINK, CUP OR WARP

KDAT IS LIGHTER

PAINT, STAIN OR SEAL IMMEDIATELY

BENEFITS OF USING CULPEPER KDAT LUMBER:

- Ready to paint, stain or seal immediately
- Dried to original moisture content
- Increased strength and stiffness
- Lighter weight than freshly treated lumber
- Easier to cut, install and handle
- Minimizes the natural tendency to shrink, cup and warp

RECOMMENDED APPLICATIONS:

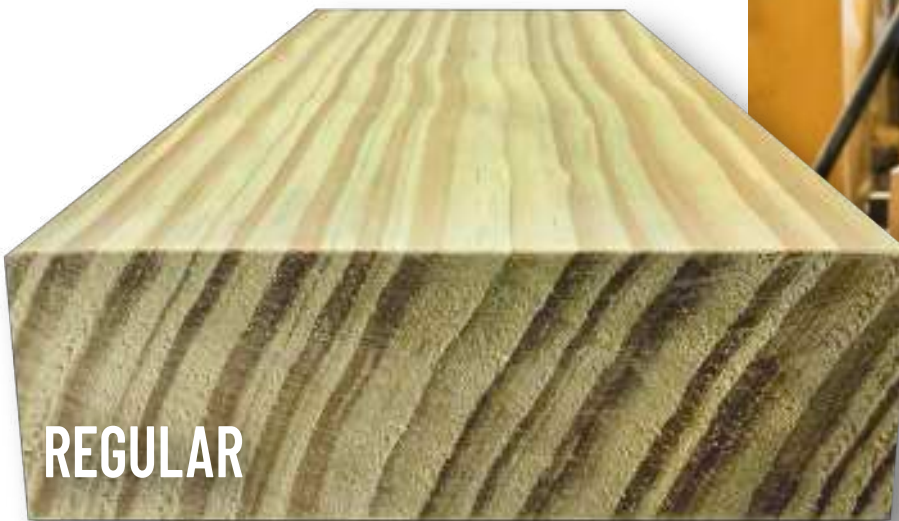

- Decks
- Trim and window casings
- Permanent wood foundation

CULPEPER PLUS

DRESS UP YOUR DECK WITH CULPEPER PLUS!

We run your deck boards through a state of the art moulder to add a 1/4" RADIUS EDGE on all 4 corners and at the same time we give it AN EXTRA SMOOTH SURFACE for that extra level of refinement you demand for your home.

REGULAR

PLUS

Extra Smooth Surface

Noticeable 1/4" Radius Edge

CULPEPER AQUA SHIELD

CULPEPER AQUA SHIELD WATER REPELLENT WILL TAKE YOUR DECK TO THE NEXT LEVEL OF PROTECTION.

Culpeper Aqua Shield is a wax based water repellent that is infused in the wood during the treatment process at the factory. This process ensures water resistance for all four sides of the board and gives you a head start on protecting your deck. This process protects your board from the adverse effects of water and the elements on all four sides, and gives you a head start on enjoyment.

BENEFITS:

- No need to apply water repellent immediately after installation.
- Minimizes cracking, warping and twisting due to swelling and shrinking from weather cycles
- More water repellent protection than typical brush-on treatments.
- Lifetime limited warranty against rot, fungal decay and termite attack.

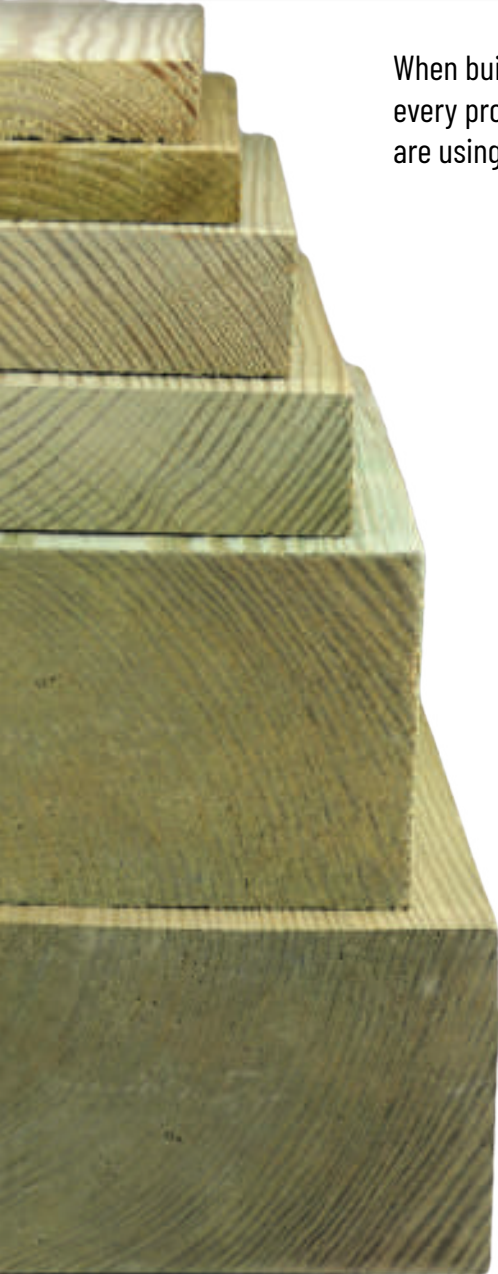

**GIVE YOUR DECK
AN EXTRA COAT OF
PROTECTION WITH**

CULPEPER DIMENSIONAL LUMBER

When building with **CULPEPER DIMENSIONAL LUMBER**, we know our reputation is on the line with every project you build. By using Culpeper pressure treated lumber, you can be confident that you are using the highest quality products backed by one of the largest producers in the industry.

CULPEPER COLUMNS

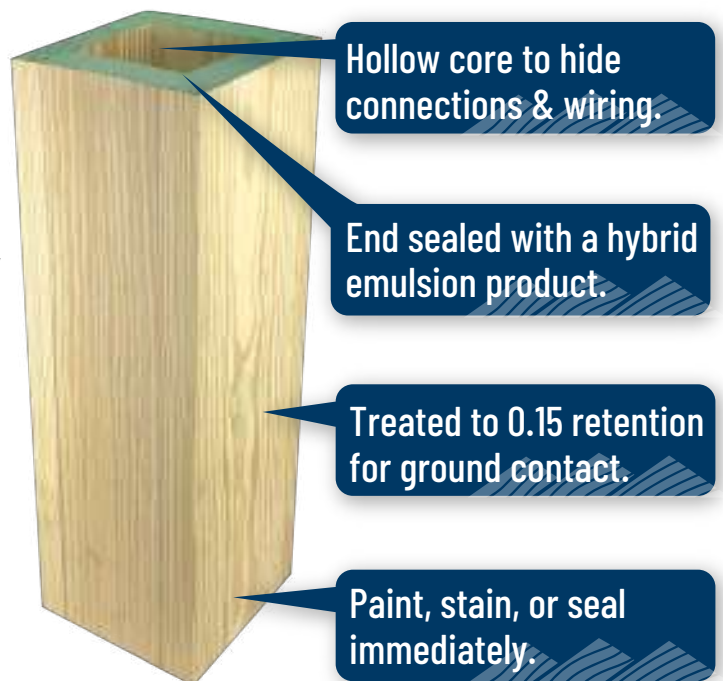

The Original Laminated Timber Column

CULPEPER LAMINATED TIMBER COLUMNS have the handsome appearance of veneer-encased timbers without requiring extra construction time. They are treated for ground contact and can be used in place of fiberglass or aluminum columns for a substantial cost savings.

Traditional solid timber columns are prone to warping and cracking in a short period of time after installation. Laminated timber columns by Culpeper are lighter, easier to handle and much less likely to twist and crack than traditional solid columns. For unrivaled strength and beauty, a clean finish and no more need for wrapping with a veneer, look no further than the original laminated timber column from Culpeper.

- Ready for immediate installation
- Paint, stain, or seal without delay
- Made from Southern Pine
- Sturdy & lightweight
- Limited warranty against damage from termites & fungal decay
- Greater load-carrying capacity than solid timbers
- Easier to install than solid timbers
- Less likely to twist
- Strength ratings outperform composite & PVC options
- Culpeper Columns are kiln dried after treatment. They must be primed and painted or stained immediately after installation.

Culpeper square laminated timber columns are available in cross sections from 4x4 to 12x12. They are also available in two different styles of turned posts in 5" and 6" sizes. For a complete list of dimensions and load specs, visit culpeperwood.com.

CULPEPER PALMETTO PRIMED TRIM BOARDS

PALMETTO PRIMED TRIM BOARDS are pressure treated trim boards that are pre-primed at the factory with a high quality, exterior, oil-based primer from Sherwin Williams, a leading manufacturer of coating products world wide.

FEATURES OF PALMETTO PRIMED TRIM BOARDS:

- Run through our state of the art moulder to ensure a consistent thickness and width. This process creates slightly eased edges on all four corners for a pristine refined trim board.
- Clear grade of lumber on two edges and one face with no wane
- Pressure treated ground contact with MCA
- Kiln dried after treatment (KDAT)
- Pre-primed with a high quality exterior oil based primer from Sherwin Williams, encapsulating the boards on all six sides.

IDEAL FOR:

- Exterior Trim & Fascia
- Garage Door Liners
- Rake/Frieze Board
- Corner Boards
- Bellyband
- Drip Edge

BENEFITS OF PALMETTO PRIMED TRIM BOARDS:

FUNCTIONAL – available in multiple widths and lengths for all popular exterior uses. Lightweight and strong.

NATURAL BEAUTY, BUILT TO LAST – Solid wood remains one of the most attractive and cost effective exterior millwork choices for projects. Primed and preservative treated, PALMETTO PRIMED TRIM BOARDS will save builders time and money.

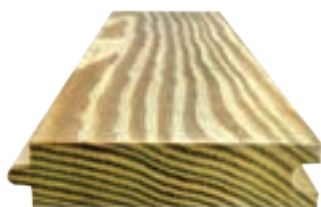

COST EFFECTIVE – Less costly than cedar, redwood, fiber cement or composite alternatives. Our trim boards offer a great appearance at an economical price.

PLEASE NOTE: End cuts **MUST** be coated with a primer prior to installation to maintain the lifetime warranty of your Palmetto Primed Trim Boards.

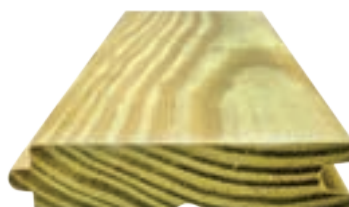

CULPEPER PORCH FLOORING, T&G & CUSTOM MILLING

The porch stands the test of time as an architectural icon, adding comfort, distinction and value to your home. Today's home designs incorporate the porch as a natural extension of the family's living space. **CULPEPER PORCH FLOORING** is a superior choice to help you enjoy that lazy summer day.

1x4 T&G Porch Flooring

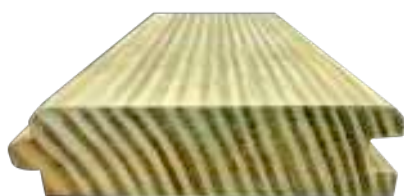

1x4 T&G Porch Flooring W/ Bead

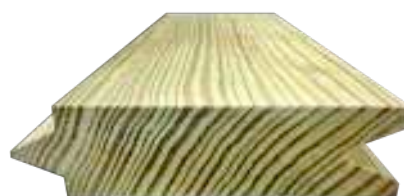

5/4 X 4 T&G Porch Flooring W/ Crown Bead

CULPEPER TONGUE AND GROOVE boards consist of a "tongue" on one side and an interlocking "groove" on the other side. The T&G style is popular for porch or covered patio ceilings, wall coverings and siding.

CULPEPER MARINE DIVISION

Our **CULPEPER MARINE & INDUSTRIAL DIVISION** offers a wide array of CCA treated lumber, timbers, and pilings for EPA approved uses. In addition, we carry hardware and all the accessories necessary to complete any marine project.

Culpeper **MARINE** products should be used for building in the harshest of environments namely in and around water. For centuries wood has been used in the construction of boardwalks, piers, marinas, seawalls and docks. Culpeper CCA pressure treated wood products can handle the toughest marine conditions in both brackish and salt water applications.

While deck boards and railing systems along with any part of the structure above the water line must be built with Culpeper MCA treated wood, the substructure for building in both brackish or salt water requires hardy CCA marine treatments.

Our marine treatments are available in CCA retention levels of .60, .80, 1.0, 1.5 and 2.5.

CCA DIMENSIONAL LUMBER

#2 2x4 - 2x12

#1 1x4 - 1x6

#1 Prime 2x4, 2x6

CCA TIMBERS

CCA TONGUE & GROOVE

2x10 S1S Square Edge (8' - 20')

3x10 S1S Square Edge (8' - 20')

Note: as you can see CCA treated wood is a darker green color compared to lumber treated with MCA.

CCA PILING

POLE: Defined by its particular structural installation. If the pole is set with the butt (large end) in the ground, such as a utility pole or barn pole, it is referred to as a pole.

PILING: Also defined by its structural installation, pilings are driven into the ground with the tip (small end) first.

CLASS B: A minimum diameter of 12" up to 3' from the butt with an 8" tip

6" Butt: 12', 16'

8" Butt: 10', 12', 14', 16', 18', 20', 25'

9" Butt: 10', 12', 14', 16', 20', 25', 30'

10" Butt: 12', 14', 16', 20', 25', 30', 35'

12" Butt: 20' - 35'

8" Tops: 20' - 40'

Class B: 20' - 70'

CULPEPER HEAVY TIMBERS

By using **CULPEPER HEAVY TIMBERS** you can ensure your project starts with a strong foundation. Trust the structural integrity of your project to **CULPEPER HEAVY TIMBERS**. Whatever your project, we stock the timbers to meet your needs.

We have over 100 different sizes of **CULPEPER HEAVY TIMBERS** in stock and ready for immediate shipment. They are Southern Yellow Pine and available in both MCA and CCA in a multitude of treatment retentions.

CULPEPER CONTINUING EDUCATION

CULPEPER AIA CONTINUING EDUCATION

Culpeper is proud to be a certified provider for AIA Continuing Education. Through a partnership with Ron Blank & Associates, we are able to offer these educational meetings to our dealers, staff and associates.

The American Institute of Architects measures continuing education in learning units (LUs). One hour of continuing education equals one learning unit.

AIA CE REQUIREMENTS

AIA members are required to complete 18 learning units every calendar year.

The due date for completion is December 31st every year.

Architects must take the HSW courses from a registered AIA CES provider.

Scheduling a Lunch & Learn can be a convenient way to help your staff earn continuing education hours easily!

With the help of Ron Blank & Associates, Culpeper is a proud AIA Continuing Education (CES) provider offering accredited technical seminars.

CULPEPER WEBINARS

Webinars are a great way for your team to learn about Culpeper products. Free online instruction could not be more convenient! Contact Culpeper if you would like a custom tailored topic, or check our website for our most current offering.

CULPEPER LOCATIONS

Producing the largest array of top quality treated wood products, Culpeper is uniquely positioned to serve elite building material dealers and their professional contractors.

Culpeper's brand name products are produced at our strategically located plants and sold exclusively through lumber dealers throughout the Mid-Atlantic, Northeast, Mid-West and South.
